Project Demo Planning

Date	28 October 2026
Team ID	EN25CS3090269
Project Name	Smart Healthcare Analytics
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduction of Health360, the problem statement, project objectives, and purpose is explained.	2	Sherin Kuriakose
2	Tableau Dashboard Demonstration	Demonstrated KPI cards, patient distribution, blood pressure analysis, heart disease heatmap, and dashboard filters.	2	Sherin Kuriakose
3	Tableau Story Demonstration	Explained the Story points and showed how visualisations communicate important healthcare insights.	2	Sherin Kuriakose
4	Flask Website Demonstration	Showed the Health360 homepage, navigation sections, and access to the published Tableau dashboard.	1	Sherin Kuriakose
5	Conclusion	Summarised project outcomes and explained future improvements.	1	Sherin Kuriakose

Demo Flow Summary:

Step	Activity Notes
1	The main objective of this project is to analyze healthcare data and present meaningful insights about patient demographics, lifestyle habits, and disease indicators.
2	Health360 uses a synthetic healthcare dataset containing 5,000 patient records and 21 fields. Tableau is used for data analysis and visualization, while Python and Flask are used to develop a simple web interface. HTML and CSS are used to design the website.
3	The Tableau dashboard, including KPI cards, charts, and interactive filters will be demonstrated. The Tableau Story will be presented to explain the important visual insights. Finally, the Flask website will be displayed to show how users can access the project dashboard and Story.
